

Q1- The easy identification of the crewmember in case of evacuation is:

- A - Life jacket & uniform jacket & tie
- B - Cap & uniform jacket & power megaphone**
- C - jacket & tie & shirt

Q2- The evacuate command given through over wing exit is ?

- A - Leg_head_body_leg.**
- B - Head_body_leg.
- C - All above answers are correct

Q3- The minimum number of cabin crew for flight with 107 passengers is:

- A - 4 cabin attendant
- B - 3 cabin attendant**
- C - 2 cabin attendant

Q4- An exit door is considered as unserviceable when one of its components is out of order.

- A - Opening mechanism & gust lock.
- B – Escape slide & emergency light.
- C - All of the above answers are correct.**

Q5- The all occupants of an aircraft are:

- A - All crew & pax aged 2 years and more**
- B - Pax aged 2 years and more.
- C - Answers b + c are correct.

Q6- What is the passenger definition?

- A - Any holder of a ticket whatever his age.
- B - Any holder of a ticket aged 2 years and more.**
- C - Any holder of a ticket aged 2 to 12 years.

Q7- The number of pax allowed on any flt is determined by taking the following into consideration:

- A - Number of cabin crew & cabin seating arrangement.
- B - Number and type of serviceable exits and emergency equipment.
- C - Answers A & B are correct**

Q8- The escort of any group of children must be aged:

- A - At least 12 years old.
- B - At least 15 years old.
- C - At least 18 years old.**

Q9- Each infant onboard aircraft must be:

- A - Placed in aft cabin rows.
- B - Placed in a row with an extra oxygen mask.**
- C - Placed in the first row.

Q10- During Refuelling With Passengers On Board :

- A - The AFT Left Slide Will Be Kept In The Armed Configuration..**
- B - The Slides Will Be Kept In The Disarmed Mode.
- C - The Slides Will Be Kept Disarmed And Safety Pins Off, Held In Hands

Q11- Wchc travelling individual on same flight must be distributed as following:

- A - One wchc handicapped per a door.
- B - One wchc handicapped per three doors.
- C - One wchc handicapped per pair doors,**

Q12- The number of wchs handicapped travelling on same flight is:

- A - 4 wchs handicapped pax.
- B - 6 wchs handicapped pax.
- C - number is not limited**

Q13 - Using the tape recorders with earphone during the cruising are allowed:

- A - True.**
- B - False.

Q14 - Boarding and disembarking of handicapped pax as following:

- A - Boarding last disembarking first.
- B - Boarding before pax embarkation.
- C - Boarding first disembarking first**

Q15- Cabin hand luggage dimensions must not exceed:

- A - 115 m.
- B - 115 km.
- C - 115 cm.**

Q16 - Which animal can we accept it in the cabin without cage?

- A - Small cat.
- B - Small dog.
- C - Guide dog for blind passenger.**

Q17 - Which Precaution Should Be Taken While Using The (BCF) On Hot Surface:

- A- Use PBE To Protect Your Self**
- B- Direct Extinguisher To The Aim Of Fire
- C- Attack Fire

Q18 - The use of radio transmitter is forbidden onboard the aircraft.

- A - True.**
- B - False.

Q19 - Seats immediately contiguous to the wing exits must have one or more of the following:

- A - Seat back not reclinable & seat arm fixed to the exit..
- B - Seat back not inclinable fwd& lowered layer.
- C - Answers a &b are correct..**

Q20- Cabin crew jump-seats must be equipped with:

- A - Seat belt & shoulder harness.**
- B - Seat belt , headrest and may be harness.
- C - Both answers are correct.

Q21- Jet aircraft oxygen systems are two types:

- A – Portable O₂ & fixed system.**
- B - Small & big.
- C - gaseous & chemical.

Q22- In each lavatory there must be:

- A – At least 3 oxygen masks.
- B – At least 4 oxygen masks.
- C – At least 2 oxygen masks.**

Q23- Define wchc handicapped passenger:

- A - Person who can move by himself on any level.
- B - Person who can move by himself only on horizontal level.
- C - Person who cannot move by himself need an assistance.**

Q24- The minimum pressure of Scott oxygen bottle is:

- A - 3/4 .
- B - 1000 psi.
- C - 1500 psi.**

Q25- When Cabin Crew Must Prepare For Unplanned Emergency

- A- During Land Evacuation
- B- During Ditching
- C- During Pre Flight Check ,Cabin Preparation , During Boarding**

Q26- In Case Of Emergency Communication With Cockpit Must Be Made By

- A- Interphone**
- B- Public Address
- C- Both Answers Are Correct

Q27-the oxygen bottles which are certified for air transportation are:

- A – Bronzavia & Scott.
- B - Scott &eros& any other bottle approved by authorities.**
- C - Eros &Bronzavia& Scott.

Q28 -constant outlet (4L/min) can be used without doctor permission:

- A- True,**
- B - False.

Q29 -oxygen portable bottles used for:

- A - Cabin crew.
- B - Passengers & cabin crew.
- C - Passengers & all crew members**

Q30 -in case of decompression oxygen masks drops automatic:

- A - When a/c altitude reaches 14.000 feet.
- B - When cabin altitude reaches 14.000 feet.**
- C - When cabin altitude reaches save level.

Q31- What Is The Meaning Of (Attention) Cabin Crew At Station From The Cockpit

- A - Cabin Crew Must Prepare The Passengers For Evacuation
- B - Check Passengers, Secure Galley , Inform Chief Cabin Ready B-
- C- Return To Seat, Fasten Seat Belt And Wait For Orders**

Q32 - To Protect Passengers during Impact What Must The Cabin Crew Do

- A - Unfasten Your Seat Belts Come This Way
- B - Shouting To Passengers Bend Over Stay Down**
- C - Keep Your Seat Belt Fastened , Pull The Mask

Q33 -The three elements of fire are :

- A - Class a & class b & class c .
- B - Material & oxygen & heat ,**
- C - The answers A & B are correct.

Q34 -When using a fire extinguisher you must:

- A - hold it vertical and use your both hands
- B - hold it vertical and you may use only one hand sometimes.**
- C - both answers are correct.

Q35 -What is the fire classification type B fire?

- A – Electrical fire.
- B - Flammable liquid fire.**
- C - Magnetic fire

Q36 - Water extinguisher H2O can be used for class A & B.

- A - True.
- B - False.**

Q37 - The number of extinguishers onboard is related to:

- A - The number of cabin crew.
- B - The number of passengers seats.**
- C - The number of passengers.

Q38 - In case of smoke in the cabin inform cockpit crew by:

- A - Using a PA (public address) .
- B - Using an interphone system.**
- C - Both answers are wrong.

Q39 - For an A/C with more than 200 pax seats there must be:

- A - 2 crash axes in the cabin & no crash axe in cockpit.
- B - 1 crash axe in the cabin & 1 crash axe in the cockpit.**
- C - All above answers are correct.

Q40 - While you check the crash axe it must be :

- A - Valid for two years.
- B - Sealed in its place.**
- C - valid for one year.

Q41 – The number of (PBE) onboard is related to:

- A - Number of cabin crew.**
- B - Number of fire extinguishers or regular C/As whichever is fewer.
- C - Number of oxygen bottles..

Q42 - The effects in case of a rapid decompression :

- A - Sudden drop in pressure & temp and deep diving of A/C
- B - Lighting of cabin signs & presentation of oxygen masks.
- C - Answers A & B are correct .**

Q43- Passengers who must have a seat onboard an A/C are:

- A - Any passenger onboard the A/C .
- B - Only passengers aged two years and more.**
- C - All above answers are wrong.

Q44- Who is responsible for the operation , safety of A/C and all persons on board during flight?

- A - All crew members.
- B - The pilot in command.**
- C - The senior cabin crew member.

Q45- What Is the Reason For Having The Assist Hand In Each Exit

- A- To Help You During Opening And Closing The Exit
- B- To Protect You During Emergency
- C- Both Answers Are Correct**

Q46- Using water extinguisher fire in the cockpit is considered as :

- A - Dangerous.**
- B - Effective.
- C - Both answers are wrong.

Q47 - One of the protections for waste container in the lavatory is:

- A - made tight so as to control an eventual fire.**
- B - Equipped with a water tap for water supply.
- C - Both answers are correct.

Q48 - In case of rapid depressurization:

- A - Help passengers immediately.
- B - Go back to your position.
- C - Get any available mask sit and secure yourself .**

Q49 - The A|C cabin emergency doors and exits are :

- A - All lateral door and exits & over wing exits**
- B - Movable cockpit windows & evacuation hatches in ceiling.
- C - Answers A&B are correct.

Q50 - each A|C must be equipped with emergency lights to provide:

- A - Minimum lighting in cabin & lighting outside emergency exits.
- B - Illumination of marks & direction lighting to exits.
- C - Answers A & B are correct.**

Q51 -the emergency light can be activated from cabin disregarding the position of cockpit switch.

- A - False.
- B - True.**

Q52 -there must be a megaphone in an AC with 67 seats.

- A - True.**
- B - False.

Q53 -safety instructions cards must be available as following.

- A - 1 for each row.
- B - 1 for each passenger seat.**
- C - 1 for each 50 pax seat.

Q54- When Security Check Must Be Performed

- A- During Pre Flight Check , Cabin Preparation , When All Passengers Leave The Aircraft
- B- After Passengers Disembarkation And During Transit With Pax Are On Board
- C- Answers (A) (B) Are Correct**

Q55-signalling mirror can be used even if we don't see or hear the rescue.

A - True.

B – False

Q56 -the individual equipment for overflying water is:

- A - Life vest.**
- B - Life raft or slide raft.
- C - Answers a & b are correct.

Q57 -in case of cabin fire the actions has to be taking is:

- A - Move oxygen bottles away from fire area.
- B - Move passengers away from danger area.
- C - Both answers are correct**

Q58 - How Can You Identify The Night Signal Flare In Complete Darkness :

- A - By The Orange Colored Plastic End Cap.
- B - By The Protrusion On The Plastic Cover , Or By The Metal Washer Attached To The Full- Ring C Ord**
- C - By the Plain Cord Attached To The Full Ring

Q59 - the slide fail to inflate automatically after evacuation order you must:

- A - Pull the manual inflation handle.**
- B - Ask the passengers to jump.
- C - All above answers are wrong.

Q 60 - adult life vests must never be inflated in the cabin.

- A - False.
- B - True.**

Q61 - HO2 fire extinguisher can be used for class A and B

- A - True
- B - False**

Q62 - Which of O2 system used for passengers first aid:

- A – Portable oxygen bottles**
- B - Fixed oxygen generators
- C - None of the above

Q63 - If the PA system Is Inoperative, The Signal To Brace Will Be Given By:

- A- Using the Emergency Call.**
- B- Recycling The No Smoking Sign 3 Times.
- C- Recycling The Seat Belt Sign 3 Times.

Q64 - Over Wing Slides Are Used:

- A- Only During Ground Evacuation To Help Passengers To Reach The Ground Quickly And Safely.
- B- Only During Ditching, The Slide Can Be Detached, And Used As A Floatation Device.
- C- In Both Situations Water And Ground Evacuation To Evacuate Passengers Quickly And Safely**

Q65 - The Four Basic Principles To Survival Are:

- A- Protection, Oxygen , Water , Food
- B- Protection, Water, Food , shelter , first aid , signaling equipment**
- C- All The Above are correct

Q66 - According To LCAA) The Number Of Cabin Crew To Be Carried On Board An Aircraft Is

- A- Two Cabin Crew For Every 50 Pax On Board
- B- One Cabin Crew For Every 50 Pax On Board
- C- One Cabin Crew For Every 50 Seats On Board**

Q67 - The Evacuation Alarm Signal Can Be Activated From The Cockpit Only .

- A- True
- B- From All Stations
- C- From The Cockpit And From The Chief Cabin Station**

Q68 - When Cabin Crew Must Be Aware That Any Emergency Can occur ?

- A- During Taxi Or While Parking
- B- During Evacuation On Land
- C- During Ditching**

Q69- In Event Of Loss Of Electrical Power What Lighting Systems Will Illuminate.

- A- The Exit Emergency Light Only
- B- Floor Path Light , Ceiling Light Signs , Over Exit Emergency Light**
- C- None Of The Above

Q70 - What Would Be The First Aid For Stroke:

- A- Ensure Open Airway, Call For Help , Perform CPR**
- B- Check Vital Signs And Keep Person Calm
- C- Administer Oxygen
- D- All of above correct

Q71- The escape slide could be used as :

- A - flotation device on ditching**
- B - cannot be disconnected from the girt bar
- C - it is not necessary to be removed from the A/C

Q72-- which light signal shall be sent BY the flash light?

- A - Circling or vertical motion
- B - Circling or vertical motion
- C - Circling motion or SOS 3 short 3 long and so on**

Q73-To disconnect an escape slide witch steps has to be followed:

- A - Left up the flap .pull release handle. Cut mooring line**
- B - Pull manual inflation handle
- C - Pull reentry strap cut mooring line

Q74- when should the first ration of drinking water / food, be given out?

- A - After 12 hours
- B - After 24 hours**
- C- After first sign of thirst /hanger

Q75 - In The Event That Power To The Aircraft Cannot Be Provided, It Is Recommended That Authorization from the COCKPIT Be Obtained To Open Door Using the Following Safety Procedures

- A- Open Door As Per Normal Procedures Using Extreme Caution , Attach The Door Barrier Safety Strap Across The Door
- B- Aircraft Doors Must Never Be Left Unprotected Once Opened By Cabin Crew.
- C- All The Above**

Q76- When Giving A Rescue Breath During (CPR) , Each Breath Should Last About .

- A- Half Second
- B- One Second**
- C- Three Seconds
- D- Four Seconds

Q77 - You Should Continue (CPR) Until.

- A- The Person Shows An Obvious Sign Of Life**
- B- Another Trained Responder Or (EMS) Personnel Take Over
- C- You Are Too Exhausted To Continue
- D- You Are Too Exhausted To Continue

Q78 - Effective Chest Compressions.

- A- Allow The Chest To Return To Its Normal Position
- B- Are Delivered Fast , About 100 Compressions Per Minute
- C- Are Smooth , Regular And Given Straight Up And Down
- D- All Of The Above**

Q79- ICAO Annex 17 States (Security) What Does Security Means?

- A- To Safeguard International Civil Aviation Operations
- B- To Safeguard International Civil Aviation Operations Against Hi-Jacking
- C- To Safeguard International Civil Aviation Operations Against Unlawful Interference**
- D- To Safeguard International Civil Aviation Operations Against Terrorism

Q80- ICAO Annex 17 States That Each State Is Responsible For Establishing Security At :

- A- All Aerial Locations Within The Fir
- B- At Each Aerodrome Serving International Civil Aviation**
- C- All International Airports
- D- All International And Commercial Airports

Q81 - When should you give rescue breathing?

- A- Conscious choking victim
- B- Unconscious choking victim
- C- Unconscious, not breathing, but has a pulse**

Q82 - The important markings on the package are UN number Shipping name and quantity:

- A- True.**
- B- False.

Q83 - You notice that a child looks panicked and cannot cough, speak or breathe. What life-threatening Condition could the child be experiencing?

- A- Indigestion.
- B- Choking.**
- C- Poisoning

Q84 - When giving rescue breaths to a child, how should you breathe into the child?

- A- Give a breath lasting about 1 second.
- B. Give breaths as fast as you can.
- C-Give breaths as hard as you can..
- D- Answer B & C are correct .

Q85-what are dangerous goods?

- A- Articles or substances which are capable of posing a significant risk to health safety or toProperty when transported by air and which are classified according to the regulations.
- B- Articles or substances which are capable of posing a significant risk to health safety when transported by air
- C- Articles or substances which are capable of posing when transported by air

Q86 -frozen food may NOT be packed in dry ice?

- A-True
- B- False

Q87 - If the cockpit is equipped with a flight crew compartment door, this door should be:

- A- Lockable from within the compartment only
- A- May be locked and opened from the cockpit and the cabin
- B- can be opened by cabin crew from the cabin side only.

Q88- About how many cycles of CPR should you perform in 2 minutes?

- A - 1.
- B- 3.
- C- 4.

Q89 - What is required if security personnel on board are to be armed

- A- Agreement with the destination state and inform the PIC
- B- Inform the police department at the destination airport
- C- Notify PIC that the decision has been made to allow armed persons on board

Q90 - When giving artificial respiration to the injured we take the time:

- A- Sec second.
- B- 2 second.
- C- 2 second.

GOOD LUCK
